Kitchen & Laundry
Design

Kitchen Design

We provide innovative, practical commercial kitchen design solutions, utilizing state-of-the-art design software to maximize the potential of each space.

Special materials and cutting-edge equipment are carefully selected to ensure a highly functional, logically structured and fully integrated space, at the lowest construction and long-term operating costs to our clients, from renowned real estate developers, architects and project management firms to hotel and restaurant chains and operators.

Laundry Design

We stay at the forefront of green design and technology trends to ensure state-of-the-art commercial laundry solutions that reduce water and energy use, and eliminate the need for environmentally-damaging chemicals.

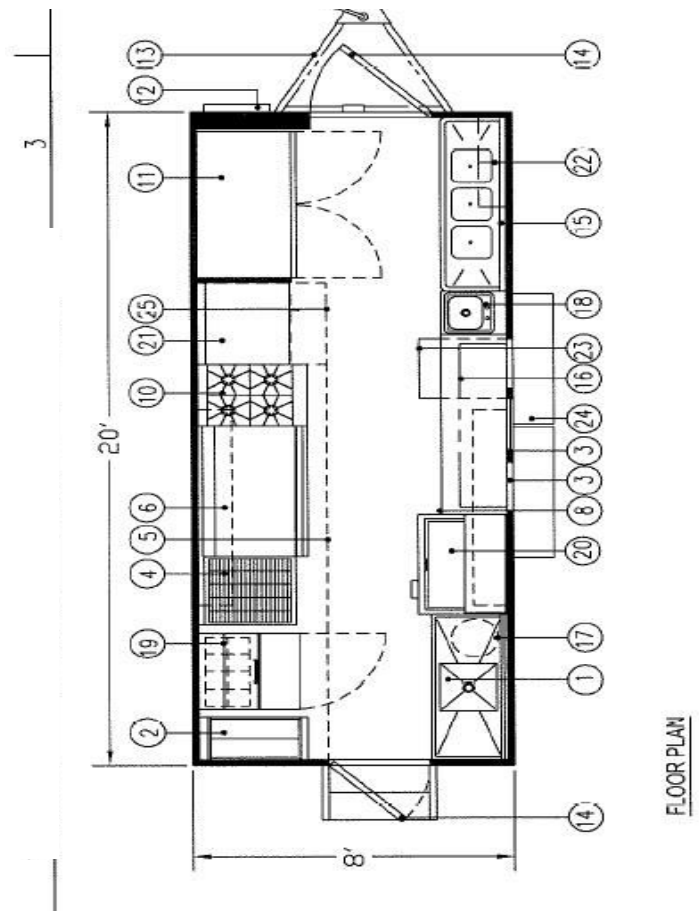

In this way, we are able to create highly-functional, innovative facilities that help our clients enhance profitability and deliver superior laundry services to their guests.

Our Kitchen & Laundry Design Services:

- Concept design
- Schematic design
- Detailed design
- Tender documentation
- Tender evaluation
- Overview of work in progress

SERVICES DESIGN TECHNOLOGY International

About SDT

SDT international was established in 1991 as an engineering consultancy company that provides comprehensive range of services in the Structural, Mechanical, Electrical, Infrastructure, Environmental and Plumbing design.

For the past 22 years, we have been a pioneering force in the planning, design and implementation of development projects in the Middle East, UK and Australia.

With six offices in six countries, we employ high caliber specialized engineers capable to apply innovative approaches to design and deliver practical and cost effective solutions.

UK . Lebanon . KSA . Qatar . Dubai . Australia
